

Grant DuoWave Plus System

Unvented and Open Vented Triple Coil Solar Cylinder Range

Installation Instructions Addendum

The information regarding Standing heat losses on page 5 of the manual has been updated following product improvements made in 2012. The corrected figures, as measured by WRc-NSF, are shown below.

	DuoWave Plus	
	300U	300
Standing heat loss (kW)**	4.57	4.57

** Test carried out at 60°C.

Please retain this addendum with the original installation manual Part No. DOC 77. Rev 03. January 2011
