

Grant MonoWave System

Indirect Heat Pump Cylinder Range

Installation Instructions Addendum

The information regarding Standing heat losses on page 4 of the manual has been updated following product improvements made in 2012. The corrected figures, as measured by WRc-NSF, are shown below.

Model Number	MonoWave HP Indirect Cylinders						
	125	150	170	200	250	300	400
Performance:							
24 hr standing loss (kW)*	1.40	1.44	1.48	1.54	1.83	2.09	2.70

* Test carried out at 60°C.

Please retain this addendum with the original installation manual Part No. DOC 74. Rev 04. January 2011
