Installer support at every level

Dedicated Renewables Support Team

For peace of mind, the Grant Renewables Support Team are on hand to assist with the design and sizing requirements for Grant renewable and underfloor heating installations. Send your plans or queries to design@grantuk.com

G1 Installer Scheme

The G1 Scheme is designed to provide installers with the essential tools they need to successfully fit and endorse Grant products – from training through to marketing support, the G1 Scheme has it covered.

For further details visit www.grantuk.com/professional/g1-scheme

Extended Product Guarantees

To reflect Grant's confidence in their products, G1 installers can access exclusive extended guarantees on all renewable products.

Not MCS registered? Not a problem.

Through the G-Cert scheme Grant UK can certify renewable installations for MCS accreditation on behalf of the installer so you can enjoy all the benefits with minimal hassle. Find out more at www.grantuk.com/professional/support/g-cert

Award Winning Training Academy

With so many developments in the heating market, we understand the importance of offering comprehensive training and support for products. Our award winning Training Academy demonstrates Grant's commitment to providing professional training for heating engineers
